Coating Options

Coatings are available in a variety of options and can be applied to a number of substrates to create stunning visual pieces.

HD Photographic Display

The high definition, photographic coating is an upgraded coating package that provides incredible image reproduction along with superior fade resistance. Combining these qualities with chemical, scratch, abrasion and stain resistant properties make this coating the premier choice for high end image reproductions for commercial and residential spaces. Available finishes include: *High Gloss, Semi-Gloss and Matte.*

Outdoor/UV Resistant (EXT)

The outdoor coating provides protection from UV rays, giving users the ability to take prints outdoors or into direct sunlight. Offers vibrant image reproduction, weathers well, and is chemical, scratch and graffiti resistant. Available finishes include: *High Gloss.*

Signage/Display

The signage and display coating is chemical, scratch, abrasion and stain resistant and also has fade properties that make it a perfect choice for a variety of projects. Available finishes include: *High Gloss.*

Applications:

Art Exhibits
Display/POP

Gallery Prints
Hospitality

Museums
Restaurants

Signage
Wall Coverings
